

SORRY WE COULDN'T SEE YOU TODAY

Exposed to HIV?

Go to you're the closest emergency department for PEP. PEP is a medicine that can prevent us from getting HIV after an exposure. Try to **go as soon as possible**, as PEP needs to be started within 72 hours. **Every hour counts!**

Aren't a BC resident or don't have MSP? Tell the HIM receptionist that you have been exposed to HIV and don't have MSP. The receptionist will then talk to the nurse!

Want to talk to someone about health-related issues?

Phone HealthLink BC at 8-1-1.

Help us improve!

We're working on improving services. Please fill out a short questionnaire and tell us what you were here for, and many times you've tried accessing the health centre.

Go to forms.office.com/r/3pnsWSkjPs or scan the QR code!
